Objective

Results-driven IT professional with hands-on experience in Full-Stack Web Development and Automation. Skilled in Python, Java, PHP, MySQL, and DevOps tools, with a strong emphasis on building scalable, high-performance applications. Recognized for a solution-oriented approach, adaptability, and commitment to continuous learning. Seeking to leverage my technical expertise and team collaboration skills in a forward-thinking software development environment.

Experience

- VFSTR, GUNTUR** June 2024 - September 2024
Vignan Mahotsav Landing Page - Web Developer
Tech Stack: HTML, CSS, JavaScript

Designed and developed a dynamic and responsive landing page with engaging animations and countdown timer.
Improved usability and cross-device accessibility through clean, user-friendly UI design.
- VFSTR, GUNTUR** June 2024 - May 2025
Vignan Mahotsav 2026 Web Page - Web Developer
Tech Stack: HTML, CSS, JavaScript, PHP, phpMyAdmin

Implemented a full-stack event management platform supporting over 3000+ student profiles. Integrated PHP for backend processing and CRUD operations; used JavaScript to generate unique user IDs.
Collaborated in a 3-member team for deployment and testing.
- VFSTR, GUNTUR** June 2024 - November 2024
Sacred Foods of God - Front-End Developer
Tech Stack: MERN (MongoDB, Express, React, Node.js)

Developed a React-based web app for architectural project planning and sacred food layout design. Integrated real-time collaboration features and role-based access for architects and clients. Built REST APIs and used MongoDB for scalable data storage and project blueprint management.
- VFSTR, GUNTUR** January 2025 - April 2025
Birthday Wisher App- Mobile Application
Developed a mobile app to send WhatsApp birthday wishes using contacts.
Worked in a team of four, focusing on UI and app integration with WhatsApp intents.
